STEEL CHALLENGE **AWARDS & PRIZES**

RECOGNITION

The 2024 Magnolia State Steel Challenge Championship will recognize divisions and categories using 5/6/8/10/12 rule. Divisions Classes and Categories must have 5 competitors for 1st place, 6 for 2nd 8 for 3rd 10 for 4th and 12 for 5th place (within each division Class or category), to be recognized. Trophies and Plaques must be accepted at the end of the match or postage fee to ship must be paid. Certificates will be Mailed to participant.

There will be various Category awards and Special Awards presented throughout the three days we are here.

AWARDS

- Division Champions - Plaque
- Division 2nd Place - Plaque
- Division 3rd to 5th Place Certificate of achievement
- Class Winners - Plaque
- Class 2nd Place - Plaque
- Class 3rd – 5th Place Certificate of achievement

- Category Winners - Trophy
- Category 2nd Place - Plaque
- Category 3rd – 5th Place Certificate of Achievement

RANDOM PRIZES

Prizes will be given out by random draw throughout the match.

Various other prizes will be given for Class achievements that we won't know until after registration such as "Fastest string on Smoke N Hope by Sr. Shooter."

Division Specifications and Policies

DIVISION SPECIFICATIONS

All thirteen SCSA divisions are eligible for competition at this event. For division specific requirements please consult the SCSA rules (<https://scsa.org/rules>) we will be using the February 2024 edition of the rule book for this event.

DISQUALIFICATION POLICY

Any competitor disqualified during the event will not be permitted to continue in the competition. This includes fire- arms scheduled for a later flight or the next day. Previously completed scores will remain as scored and the competitor remains eligible for awards and placement for those completed scores. Should a competitor have remaining slots registered in the event those slots are forfeited.

STEEL CHALLENGE

RANGE POLICIES

EYE AND EAR PROTECTION

All people on the range property must wear eye and ear protection — no exceptions. If you do not have eye and ear protection of your own, earplugs and safety glasses are available at the registration table.

COLD RANGE

All firearms on the range are to be unloaded and carried in a holster or case unless in a safety area, or at the specific command of a range officer on the line. There will be a designated area(s) for function firing and firearms handling.

SQUAD SCHEDULE

The shooting schedule will be adhered to. If a contestant arrives after their designated squad has concluded shooting, they will either fire the stage with the last squad of the day or be put with a later squad. This will be subject to the discretion of the Match Officials. The shooter may NOT reassign themselves to other squads of their choice.

PHOTOGRAPHIC RELEASE

By entering or attending the Steel Challenge, each participant authorizes unconditional use of his/her likeness, name and match results for purposes of advertising and promotion without compensation, consideration, notice, review or consent.

PREPAREDNESS

Contestants are to go to the line prepared with the appropriate number of magazines, or speed loaders and needed ammunition, so as to not cause unnecessary delay. A contestant may have an assistant to help them in reloading magazines if needed.

ROUND COUNT

Competitors may fire as many rounds as they deem necessary for each string of fire. There are a minimum of 150 shots fired for the six stages. There will be a bonus stage for charity if you choose to shoot it which will be 25 rounds each time it is shot.

USE OF TENTS AND CANOPIES

There will be designated areas for function firing and firearms handling. The shaded area at each stage is primarily for competitors. Friends and family members are allowed in this area only if not needed by competitors.

SAFETY AREAS: The range is equipped with a number of safety areas to bag and holster guns, for dry fire practice and gun repair, etc. No ammunition may be handled in any safety area.

Parking Area: Competitor parking area is designated on the map.

RULES: The match rules are found in the current edition of the USPSA Competition Rules (2024 SCSA Rules).

OBEY YOUR RO: Range officers are here to assist you in completing a safe shooting contest. Please comply with their requests. Please bring any issues to the attention of the Range Master.

LOST BRASS: All brass is donated to the staff.

ALCOHOL: Alcohol and recreational drugs may not be consumed anywhere on the range. Competitors violating this policy will be disqualified and asked to leave the range.

DRESSCODE: Practical shooting is a sport. The match director will be the final arbiter of dubious taste.

REST ROOMS: Portable toilets are located conveniently around the range.

PARKING: Parking areas will be clearly marked on the range map. Competitors may only park in the competitor areas. Lock your car and take your valuables.

GUN HANDLING IN THE PARKING AREA IS PROHIBITED.

SPECTATORS: Everyone must wear eye protection while on the range and hearing protection is strongly recommended. Climbing on berms is not allowed. Children must be under the direct supervision of a parent. If you need eye protection, please see a range master.

LCD TIME DISPLAYS: We plan to use LCD displays that show the time as recorded on the shot timer. In the event there is any discrepancy in the time displayed on the LCD and the time recorded on the shot timer the shot timer time takes precedence and will be used for scoring

Match Tracker is a Competitive Shooting Team founded by Vance Williamson and Robert Moore in late 2017.

Match Tracker originally started as a STEEL CHALLENGE Shooting Team and has now expanded to support both U.S.P.S.A. and I.D.P.A. shooting sports as well.

All three Match Tracker Teams welcomes anyone to become a team member if you share our three core beliefs: the LOVE of GOD, the LOVE of COUNTRY and SERVICE.

If you share these beliefs, we would love to have you as a member...regardless of your shooting level. Simply put, we can teach you how to shoot, we cannot teach you to be a good person. Being a member of Match Tracker means you'll always have support at any match where other Match Tracker Team members are present.

Match Tracker Team members also receive OUTSTANDING discounts from our sponsors.

**** Free App Offer**** Go to [TeamMatchtracker.com /free-app-offer](https://TeamMatchtracker.com/free-app-offer), Complete form, and Enter Code MS2024 for a free App.

So, whether you're just starting out or have already reached the "Grand Master" level, Team Match Tracker is for you.

Luke 11:21

Our goal is simple: To offer the best hunting & shooting advantage available on the market.

[STAGE 1]

SHOWDOWN

A Different Line of Sight Since 1974

We believe that no one needs another standard anything. As second generation Volquartsens, we're programmed to hold ourselves to a higher standard. To tenaciously push forward with unwavering persistence.

In short, that's how Dad did it. In spite of the odds, he built a legacy in one lifetime. Dad founded the company in 1974 from the basement of a rented house with a goal of improving the look and performance of the firearms that were brought to him. Whether he was rebluing a shotgun, refinishing an old hunting rifle, or improving the trigger on a bullseye pistol. For over a decade, Dad worked nights and weekends developing his craft. It wasn't until the mid-1980s that he decided to take the business "full-time." He worked on all makes and models of firearms, and he was fortunate enough to have several articles appear in major firearms publications in the late 1980s. In 1989, he had the honor of appearing on the cover of *American Handgunner*. This started a demand that would change the course of the business.

Early on in 1991, Dad decided it was time to narrow his focus and channel his energy into one area. He saw potential in the rimfire market, and through sheer determination he began to lay the foundation for what Volquartsen Firearms has become today. We'll stop at nothing to build on his vision with every generation to come. We recognize that "handcrafted" doesn't always mean "well-crafted," and that "Made in the USA" doesn't always equate to quality. It's why we're proud that our guns are designed and engineered to the highest standards, in Carroll, Iowa - using only the best possible materials and technologies. We steadfastly pursue our passions, while making it a priority to have the humility to listen and adopt new ideas, and to keep pushing forward.

ComputerBrilliance

Computer Brilliance is a local company who offers Managed Service Provider managing and securing systems and networks for clients throughout the United States. Their IT team is aware of current technology and has been supporting customers for two decades. Their low-footprint agent allows them to monitor and support Windows and Mac endpoints from anywhere 24x7. Using the latest tools, they monitor for hardware, software and security related issues for clients.

OUR ORIGINAL RECIPE HASN'T CHANGED

In 1980, Strick's was a hot convenient store for gas, groceries, and fried chicken. The BBQ business started when J.S. Strickland threw some extra ribs and chicken on the grill while the family was hectic for another typical holiday rush. Those extras landed in the hands of hungry customers, and that was the start of Strick's BBQ. Over 40 years later, a few more grills, and a lot more help, we're still celebrating every day at our family-owned and operated business that has become a Mississippi tradition with great food and a catering service that can feed thousands.

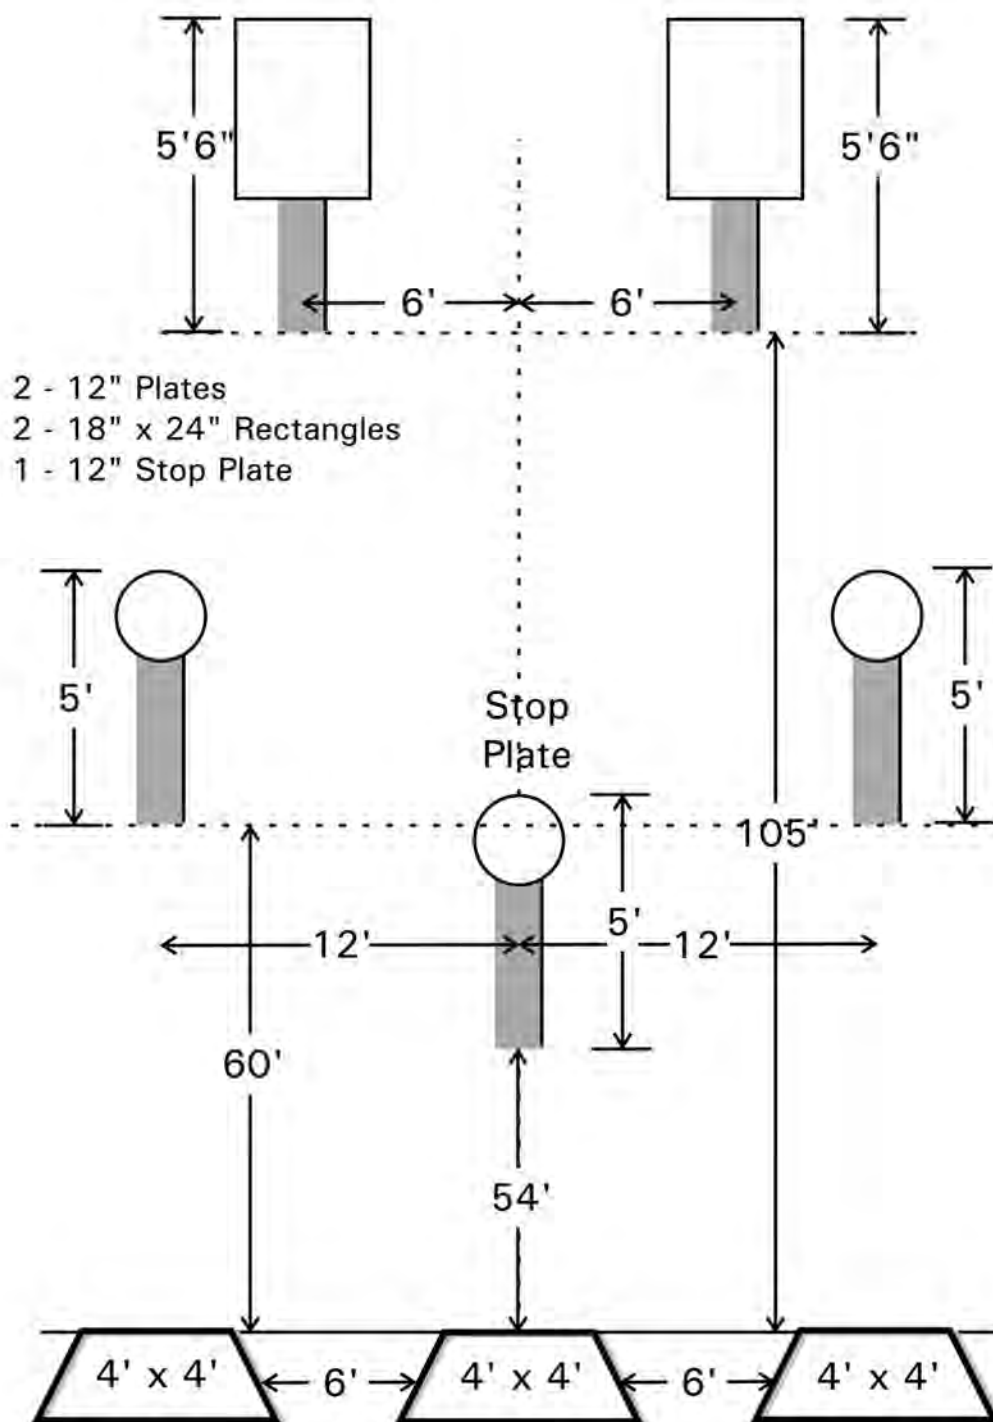

OUTER LIMITS

The diagram illustrates a cross-section of a three-lane highway. At the base, there are three trapezoidal sections representing the road surface, each labeled $4' \times 4'$. The distance between the centers of the first and second sections is $6'$, and the distance between the centers of the second and third sections is also $6'$. Above these sections, a horizontal dashed line represents a reference level. The vertical distance from the top of the middle $4' \times 4'$ section to this dashed line is $54'$. The vertical distance from the top of the left $4' \times 4'$ section to the dashed line is $60'$. The vertical distance from the top of the right $4' \times 4'$ section to the dashed line is $105'$. In the center, a vertical dashed line extends upwards from the middle $4' \times 4'$ section to a circle labeled "Stop Plate". The vertical distance from the top of the middle $4' \times 4'$ section to the "Stop Plate" is $5'$. The horizontal distance from the center of the middle $4' \times 4'$ section to the center of the "Stop Plate" is $12'$. On either side of the "Stop Plate", the horizontal distance from the center of the $4' \times 4'$ section to the center of the "Stop Plate" is $12'$. At the top, there are three circles representing traffic lights. The vertical distance from the top of the left $4' \times 4'$ section to the center of the left traffic light is $5'$. The vertical distance from the top of the right $4' \times 4'$ section to the center of the right traffic light is $5'$.

ROUNDAABOUT

SIGNATURE

THE FINEST ROUNDS ON THE MARKET

The perfect ammo for hunting out in nature or at the range. You will not find a higher quality, better performing line of rifle ammo than the Signature Ammo, Inc. rifle line. Balancing velocity, accuracy, and recoil, our development team carefully analyses every load to help our ballisticians achieve the specific outcome of superiority.

maxt

WHAT IS MANTISX?

MantisX is a gun training system that takes a data-driven approach to helping you achieve shooting mastery with no ammo required. Unlike some dry fire trainers, MANTISX works while attached to ANY firearm (pistol, rifle, or shotgun). By analyzing every shot and generating actionable data, MANTISX helps you improve your accuracy quickly.

ATTACH THE DEVICE

Connect **MantisX** to the accessory rail of any firearm. No accessory rail? Don't worry, we also have [rail adapters](#) so you can use **MantisX** with any of your firearms.

CONNECT TO YOUR PHONE

Install the smartphone application, turn on **MantisX**, and pair the device with a phone via Bluetooth. Available for both Android and iOS.

RECEIVE APP-GUIDED FEEDBACK

Collect data with every shot. Evaluate shooting performance, identify areas of improvement, and track progress over time.

The bonus stage will be a \$5 donation per gun, and you will be allowed to shoot as many times as you like for \$5 each run. You do not have to be a match attendee to shoot this stage.

HOMES OF HOPE
Giving hope to children in crisis.
